

CAVALLUNA

PASSION FOR HORSES

PRESS RELEASE

“CAVALLUNA – Gate to the Otherworld“: A Mystical Journey of Enlightenment

From October 2025, CAVALLUNA presents an extraordinary new show that takes the audience into mysterious worlds and tells a truly fantastical story. Approximately 400,000 guests are expected on the eight-month tour and they can look forward to impressive special effects, outstanding choreography and, above all, around 60 beautiful horses. Young and old alike will be enchanted by supernatural creatures and a heart-warming adventure.

The show tells the magical story of the young seer Meerin, who is cast out by her people and has to flee. She embarks on an adventurous journey on which she not only has to rediscover her own magical abilities, but also help a young king in a distant land. This endeavour is not easy as the insidious warlock Røndrup and his devious niece try everything in their power to thwart Meerin’s plan. She bravely confronts the forces of evil and unwaveringly fights for good. But it is not only her adventurous journey that keeps audience members on the edge of their seats, but also an important discovery that gives her inner strength and is also more than relevant for today’s world events. Will she manage to pass through the Gate to the Otherworld and finally find her way back home?

“CAVALLUNA – Gate to the Otherworld” is not just a horse show, but rather an extraordinary experience for the whole family, with a captivating story, touching music and an impressive stage design. An international dance ensemble completes the impressive numbers of the talented horses and riders from all over Europe. There will be elegant Lusitanos from Portugal and cute mini ponies from the island of Ischia. A spectacular Hungarian post, daring trick riders and deeply moving liberty numbers will also be part of the show. Well-known audience favourites as well as completely new faces, such as the exceptional talent Rudj Bellini from Italy, will impress young and old alike.

The tour stops in over 30 cities in Europe from October 2025 to June 2026. Further information about the show can be found at www.cavalluna.com and a selection of press photos can be downloaded [here](#) in our digital press centre.
